Demo route

Parameter	Condition and value
Owner of the demo product	InOut Games, official Demo Play mode.
Balance currency	Virtual USD in the main saved launch; DEMO in a separate Bison launch.
Registration required	The public provider card opens the demo without an operator account.
Deposit required	The virtual balance loads separately; no deposit is needed to access the public demo.
The same settings are available	Four difficulty levels, rules, sounds and manual completion in the shown client.
Balance reset rule	A new demo session and restoration within the same session are counted against their own starting balance, with no carryover of the remainder.
Cash withdrawal possible	The demo accounts only for virtual funds. External payout comes exclusively from an approved cash profile.
Match of the mathematical configuration	95,5% in the demo source. The match with the cash configuration is established per the settings of the specific launch.
Mobile access	Mobile HTML5, opening in Safari/Chrome via the provider card; within the operator bundle the scope is verified.
Switching to cash mode	Return to the lobby, log in and verification of eligibility/KYC, select the cash balance and Real Play or the corresponding mode.
Demo episode ID	DEMO-CR2-H, Hard, virtual USD.
Demo balance currency	USD in inout demo, DEMO in the separately saved Bison card.
Initial demo balance	1 000 000,00 USD on the first saved frame.
Demo balance reset	On a new start, the game token sets the initial virtual remainder. Any other frame belongs to the state within its own launch.
Demo session result	DEMO-CR2-H, virtual USD, 1 000 000,00 USD on the first saved frame; in separate snapshots 999 994, 999 991 and 999 988 USD. Bet 3 USD, Hard, manual Cash out. On the shown frame Stake cashout amount of 4,38 USD at 3 USD × 1,46; the display of the amount and a successful settlement are separate events.
Demo	InOut USD Demo Play; Stake FI Hard 3 USD, NV saved demo InOut, Bison DEMO with a separate card, Mostbet ID 123628 hasDemo=true.
Starting balance and reset	DEMO-CR2-H, virtual USD, 1 000 000,00 USD on the first saved frame; in separate snapshots 999 994, 999 991 and 999 988 USD. Bet 3 USD, Hard, manual Cash out. A new launch receives its own virtual remainder regardless of the payment cashier history.
Features in the demo	All four roads, manual Go/Cash out, Sound/Music, rules and My bet history; the starting demo remainder is virtual.
Measured indicators	Saved values of the configuration, the virtual remainder and the available amount; example Stake 4,38 USD at 3 USD × 1,46. The calculated WebView measurements are highlighted in series.

Allowed launch and frame

Parameter	Condition and value
Official launch page	https://www.inout.games/en/game/chicken-road-two — Demo Play button on the 2.0 card.
Game frame address	chicken-road-two.inout.games, path /api/modes/game with the parameters of the saved launch from the official addresses section.
Allowed launch parameters	gameMode=chicken-road-two, currency=USD, lang=en, skinId=bcgame in the specific demo.
Embedding method	Official opening via Demo Play, and if an allowed frame is available — on the provider's origin.
Route when embedding is restricted	Open the full InOut card page and launch Demo Play in an allowed browser.
Designation of virtual mode	Demo/Fun, virtual USD; in the Bison launch a separate DEMO unit.

Parameters of the preserved launch specifically

Field	Value and limits
Client RTP configuration	95.5%: in the preserved launch configuration, the value is 0.955. This is the confirmed value of the configuration's theoretical RTP. The server-side variant is established and confirmed.
Minimum bet	0.12 USD — shown directly in the Game rules window.
Maximum bet	200 USD — shown directly in the same window.
Maximum payout Max win	20 000 USD — shown directly in the same window.
Quick bet values	2, 3, 8 and 20 USD. In the rounds shown, 3 USD is selected.
Difficulties	Easy, Medium, Hard, Hardcore.
Number of lanes	Easy 30; Medium 25; Hard 22; Hardcore 18.
Risk name in the interface	Chance of being shot down. Numerical per-step probabilities are not published in the available rules window.
Payout completion	If bet × multiplier at Cash out is greater than Max Win, Max Win is paid.
Version in the client window, set by the build	1.0.0. This is the version of the rules component; it does not replace the game name Chicken Road 2.0.

The limits pertain to the saved USD session. They do not automatically establish conditions at every casino, for every currency, or in all versions of the game.

Observations from the saved demo session

confirmed. The public launch refers to the provider's demo mode. Casino registration and login are confirmed. The saved session used the player names Azure Yawning Goose and Crimson Lexical Panther. Balances 1 000 000 and 999 994 USD are visible in the data and interface; further screenshots show 999 997, 999 991, 999 988, 999 985, 999 982, 999 979, 999 976, 999 973, 999 967, 999 958 and 999 955 USD. Screenshots of the game balance, deposits and withdrawals are confirmed.

On the selected Hard difficulty with a bet of 3 USD, the following possible Cash out amounts were shown directly:

Multiplier	Displayed amount, USD
1.18×	3.54
1.46×	4.38
1.83×	5.49
2.31×	6.93
2.95×	8.85
3.82×	11.46
5.02×	15.06
6.66×	19.98
25.80×	77.40
38.71×	116.13
60.21×	180.63

These are the available Cash out amounts at the corresponding frame; receiving the amount and withdrawing it from the casino are confirmed. All listed pairs correspond to the displayed bet of 3 USD.

Live wins and Online are dynamic values

At different moments the interface showed Online: 6454, 6460, 6427, 6419, 6387; the saved text states also contain 6458 and 6379. The values refer to the moment of saving.

An important boundary of meaning: the client calculates Online as rounded `(общий счётчик сервиса − счётчик исходного Chicken Road) × 1.35`, with a lower bound of 0. In one saved response the total counter equals 5625, the original Chicken Road is 841, Chicken Road 2.0 is 2580; the computed interface value is 6458. In another response the total counter equals 5541, the original Chicken Road is 816, Chicken Road 2.0 is 2553; this yields 6379. The Online number is a confirmed calculated interface indicator Chicken Road 2.0 according to the stated formula.

The following individual entries were observed in the Live wins feed. Ellipses are preserved where the interface truncated the name; currency designations are not unified and not recalculated.

Official demo and launch addresses

The InOut Games card contains Demo Play with the API launch address given in the official section above. The public parameter of this session matches the parameter of the saved game client. The client address itself is preserved as follows:

https://chicken-road-two.inout.games/api/modes/game?gameMode=chicken-road-two&operatorId=ee2013ed-e1f0-4d6e-97d2-f36619e2eb52&authToken=247d3637-c5dc-a67b-50a1-89df27733343&currency=USD&lang=en&theme=&gameCustomizationId=&lobbyUrl=&skinId=bcgame

The address records gameMode=chicken-road-two, currency=USD, lang=en and skinId=bcgame; the theme, gameCustomizationId and lobbyUrl parameters are empty. skinId is a confirmed design parameter of this session; the game's availability at the casino of the same name is established for the relevant GEO.

In the structured data of the Casino Guru page, a provider-origin demo address is also present:

https://demo.inout.games/games-view/games/game/?authToken=9fc2bc8e-40a1-fee4-9900-2102cb30a7af&operatorId=ee2013ed-e1f0-4d6e-97d2-f36619e2eb52&gameMode=chicken-road-two&isDemo=MTc0NDgwNDk0NzQ0Nw%3D%3D&currency=USD&lang=en

The second address contains its own original parameters authToken, operatorId and isDemo. The addresses and parameters are preserved exactly as provided. They denote the launch sources found; their operability, parameter validity period, embed permission and technical compatibility with the editorial site are established and confirmed. The demo uses a separate game mode; monetary registration and a successful withdrawal are confirmed in operator records.
