Ice Casino Bonuses and Promotions

We know that bonus and promotion offers are an integral part of the real money casino experience. That's why we offer multiple promotions to our new and existing members, ensuring they gain an edge at every stage of their adventure. At Ice Casino, you can find the following types of bonuses:

Welcome Offer. Most real online casino sites only offer a bonus for your first deposit, but we provide a bonus for your first four deposits as well. We will match your first deposit by 120% and give 120 free spins to use on the Big Bass Bonanza slot. You can also get a different bonus for your other three deposits. This package allows you to win up to 1,500 USD/EUR + 270 Free Spins in total.

Loyalty Program. As soon as you join Ice Casino Online, you will automatically join our loyalty program too. This program consists of 99 levels, and the advantages you get at each level increase. Every 10 EUR/USD you wager will give you 1 comp point: You can level up by accumulating these points or converting them into casino online credits.

Weekly Reload Bonus. As soon as you reach level 10 in the loyalty program, you will be eligible for a weekly reload bonus that you can trigger with a deposit of 10 EUR/USD. This bonus will allow your deposits to be matched up to 200 EUR/USD every 7 days.

Weekly Cashback Bonus. You'll also unlock a weekly cashback bonus when you reach level 10 in the loyalty program. This bonus will allow you to receive a refund of 3% to 12% of your losses each week, depending on your

loyalty level.

You can also activate many more online casino promos, including no deposit bonuses, by subscribing to our newsletter, following the news on our website, and using special codes/links on our affiliate sites. Our bonuses will both increase your bankroll and your chances of winning.

We work with more than two dozen providers to bring you the best possible casino online game collection. Our online casino games are varied enough to appeal to all tastes and include hundreds of options in every category. All our games have the eCOGRA certificate of fairness, and their codebases are protected by MD5 technology. At Ice Casino, you can find the following categories of games:

Online Slots. There are more than 3,500 games in this category. You can either aim to create symbol sets and win or to win the grand prize in progressive jackpot games. Simply place identical symbols next to each other! Our slots category is so large that it is divided into subcategories within itself.

New Slots: Here, you can find the latest slots from game vendors. To access this category, simply click the "new" button. Don't forget to check it regularly as its content is constantly changing.

Popular Slots: The most popular slot games on our site are listed here. If you don't know where to start, we suggest you take a look at this category: You can access it by clicking the "popular" button.

Classic Slots: Do you like fruit symbols or Vegas-style slot machines? Then this category will be the right choice: you can go back to the “good old days” of slot games.

Live Casino Games. How about playing classic table games against real dealers? You can play roulette, poker, blackjack, baccarat, and much more live, and experience the authentic casino experience from the comfort of your home.

Table Games. In this category, we include traditional card and table games. You can try both classic versions and innovative variants of these games. For example, you can say hello to a new game of Andar Bahar or play baccarat without paying a commission. Some of the games in our table games category are:

Baccarat

Blackjack

Poker

Bingo

Keno

Scratch Cards

Craps

Video Poker Machines

Roulette Games. Roulette is one of the oldest casino games and has three basic variants: American, European, and French. You can find all these variants at Ice Casino, and you can also try interesting variants such as Maxi Roulette or Roulette La Partage.

Instant Play Games. Here we list all the games that have the excitement of casino games and the potential to win but do not fall into a specific category, such as scratch cards and arcade games. If you are looking for a casual

experience, this should be one of the first sections you should visit.

Specialty Games. We include both casual and classic casino games such as Keno in this category. If you want to play games that are simple, fast, and have high-paying potential, we definitely recommend you take a look.

Remember that, except for live dealer titles, you can play all these games for free: You don’t even need to create an account for that. Simply click the “demo” button and start playing thousands of games without any restrictions. If you want to play for real money and get real wins, however, you need to create an account.

Ice Casino Online Tournaments

When you join Ice Casino, you will not only play games but also get a competitive casino online real money experience. We organise weekly tournaments for games in different categories, especially slots. To join, just click the "participate" button before placing a bet on one of the games included in the event. After that, you will earn a certain point for every bet you make, and you can use these points to improve your ranking on the global leaderboard.

The grand prizes of our tournaments can start from 5,000 EUR/USD and go up to 20,000 EUR/USD. The grand prize is usually divided among the top 20 players, and everyone gets a different share according to their rank. However, each tournament has its own special conditions: it is also possible to split the grand prize among more or fewer players. We recommend that you read all terms and conditions in detail before participating in a tournament. In any case, you don't need to make a separate payment for participating in our events: just keep playing as you always do!

We use advanced software at Ice Casino, and we do not limit the use of the games and services on our site to a particular device. In other words, a player doesn't have to use a specific device for an enjoyable online gaming experience. We've designed everything we offer you to run directly on web browsers. The majority of our game collection and all other services on our site work on any device with a browser, regardless of the operating system or model.

This has two important advantages: first, you don't need to use an app for a satisfying mobile casino online experience. In addition, you do not need to open a new account to play in our mobile casino section - you can use the account you created on a certain platform (for example, desktop PC) on other platforms (for example, mobile) as well. All you need is a modern browser updated to the latest version: as long as the device you are using has such a browser, you can get the same experience and performance on any platform.

Ice Casino members don't have to go to a real casino to get an authentic experience: they can get it from the comfort of their homes. You can visit our live casino section at any time, choose a game, and start playing as if you were in a real casino. In other words, you can turn any place you are into Las Vegas! Our live casino games are played against a real dealer, and everything you see on screen happens in real-time. While playing the game, you can chat with the croupier & your tablemates and turn gambling into a social experience.

You don't need to install a program or use a specific devIce to play our live casino online games. Like everything else on our site, these games can run on web browsers and can be played on any devIce for the same reason. Whether you connect your laptop to the TV and play on the big screen or try your luck wherever you want with your mobile phone, you can get an authentic casino gambling experience anywhere and anytime you like. Poker, roulette, baccarat, blackjack, and many more games are waiting for you in our live casino category.

We realise that professional customer service is essential to an enjoyable and rewarding casino online experience. That's why we provide 24/7 access to all our customer representatives and offer multiple ways to contact them. If

you have a question or run into a problem, you can reach our customer support by:

Phone Support. By using our dedicated phone number, you can start talking to one of our customer representatives within minutes.

Live Chat Support. You can get support by using live chat on weekdays and weekends whenever you want. We offer live chat support in six different languages: English, Spanish, German, Polish, Japanese, and Russian.

While determining the payment methods you can use to make deposits and withdrawals at Ice Casino online, we paid attention to their practicality, speed, and widespread use. We support local payment methods in different countries as well as global methods such as credit cards and e-wallets. Our deposit & withdrawal methods are the same. That is, you can use a method you use for deposit to withdraw as well. You can choose the most suitable one for yourself among the dozens of options we offer. The banking methods we support are:

Credit/Debit Cards: MasterCard, Maestro, Visa Electron, and Visa Debit.

E-wallets: Skrill, Neteller, Paysafe, Trustly, GiroPay, EPS, Rapid!, Nordea, AstroPay, Payeer, Flexepin, Entropay, ecoPayz

The Best ICE Casino Slots

No doubt, casino online slots have been the most popular choice for online gamblers for ages, and they still are. Thus, if you are into spinning reels online, you can always count on us to quench your thirst with the best casino slots. Here are the top slots receiving the most action on our platform:

Big Bass Splash

Following hot on the heels of its predecessor, the Big Bass Bonanza by Reel Play, the Big Bass Splash slot game once again offers you the opportunity to go on an epic fishing expedition. A top prize worth 5,000x your wager is up for grabs in this epic 5-reel slot with 10 fixed paylines. Tap into the slot game's numerous modifiers, including free spins, money symbols, and wilds for the biggest catches.

Gates of Olympus

Here, you embark on a mythical journey to the epic gates of Olympus courtesy of Pragmatic Play. The casino online title comes with a 6 by 5 grid matrix with 20 paylines that operate on a cluster pays mechanic. As you interact with the mighty Greek gods, watch out for free spins and multipliers as they'll lead you to celestial wins up to 5,000x your bet in the divine realm.

Big Bass Bonanza

Few fishing-inspired spinners can lay claim to the fame that Reel Kingdom's Big Bass Bonanza has amassed. Its popularity isn't merely down to luck, though. The 5-reel, 3-row, 10-payline video slot is packed with well-paying specials such as free spins, multipliers, and the explosive Dynamite Feature to unlock wins up to 2,100x the initial wager.

Sweet Bonanza

If you love to give in to your sweet tooth on occasion, you'll be overjoyed by Pragmatic Play's Sweet Bonanza slot, one of the best slots online under the candy-themed games. It is a 6x5 spinner with a rewarding pays-anywhere mechanic that opens you up for tons of saccharine treats back-to-back if you get lucky with the tumbling experience. The free spins feature here could be your gateway towards unlocking its top prize, which is worth

21,100x your stake.

This Play'n GO slot is one of the originals that paved the way for the now-flooded ancient Egyptian theme. It is arguably the best casino slots game you can play to explore and loot the magnificent pyramids standing tall in scorching North African deserts. The game bears a classic 5x3 grid matrix accompanied by 10 fixed paylines, where boosters like free spins and expanding wilds will soup up your reel-spinning sessions. Rake in payouts worth up to 5000x your initial wager.

The Sugar Rush online slot is another decadent hitter from Pragmatic Play, where you chase the tastiest wins on a 7 by 7 grid with a cluster pays winning system. Your secret to unlocking the full potential of this colorful title is delicious features such as the tumble mechanic, multiplier spots, and free spin. Take advantage of the sweet surprises as they come and win up to 5,000x the bet.

Enjoy the Best of the Best on ICE Casino

You'll be happy to learn that our platform offers free gameplay for all our best slots online without registering for an account. Company and estimated data

Owner; Whitebox B.V.; Operator; Established; 2013; Estimated annual revenues; > C$5,000,000

For this review, our independent casino review team put IceCasino through its paces. We used our casino review methodology to look at what it does right and what could be better . All the key facts – from the casino's licenses and Terms and Conditions to player complaints, support, and limits – were checked by our team. They used these to decide if this casino is safe and honest , one to avoid, or somewhere in the middle.

Our findings led us to the casino's Safety Index. This score shows how safe and fair the casino is. The higher the Safety Index, the greater the assurance of playing and receiving winnings without problems. IceCasino earned a

Very high Safety Index of 9.8. This confirms it as one of the safest and most fair casinos in our database. Continue reading our IceCasino review to find out more about this casino and determine if it's the right fit for you.

Safety Index of IceCasino – Is it fair and safe?

We calculate a casino's Safety Index based on an elaborate formula that takes into consideration a wide range of information that we have collected and assessed in our review. These involve the casino's estimated revenues, complaints from the players, T&Cs, blacklists, and so on.

In our review of IceCasino, we meticulously evaluated and analyzed the Terms and Conditions of IceCasino. We did not uncover any rules or clauses that we consider unfair or predatory. This is a positive sign, seeing as any such rules could be exploited in order to avoid paying out the players' winnings to them.

Considering our estimates and the factual data we have collected, IceCasino appears to be a very large online casino . In relation to its size, it has a very low value of withheld winnings in complaints from players (or it has not received any complaints at all). We consider both the casino's size and the number of player complaints and how they correlate, seeing as bigger casinos tend to receive more complaints due to the larger number of players.

To our knowledge, IceCasino is absent from any significant casino blacklists. If a casino is included on a blacklist such as our Casino Guru blacklist , this could hint that the casino has committed some kind of misconduct towards its customers. We urge players to keep this in mind when searching for an online casino to play at.

Taking into account all factors in our review, IceCasino has scored a Safety Index of 9.8, representing a Very high value . This casino is an excellent option for most players who are in search of an online casino that is committed to fairness.

Note: IceCasino is linked to 2 other online casinos, based on the information we've collected. The Safety Index of IceCasino takes into account the qualities of all the interconnected online casinos.

T&Cs of IceCasino evaluated

Our team goes through each casino's Terms and Conditions as part of our review to assess their fairness . In T&Cs of many of them, we uncover clauses and rules which we consider unfair or outright predatory, as they give the casino the possibility to justify not paying out winnings to players in certain situations.

We did not find any unfair or predatory rules in the Terms and Conditions of IceCasino during our review.

Player complaints submitted about IceCasino

When it comes to our casino reviews, player complaints matter a great deal. They help us understand the real issues players face and how each casino deals with them . When calculating each casino's Safety Index, we consider all complaints submitted through our Complaint Resolution Center , as well as ones we collect from other sources.

We currently have 1 complaints directly about this casino in our database, as well as 3 complaints about other casinos related to it .

IceCasino user reviews and feedback

On Casino Guru, users can rate and review online casinos to voice their opinions, feedback, or experience. Based on these, we generate a total user feedback that varies between Terrible and Excellent.

Our database has a total of 158 user reviews of IceCasino, giving it a Mixed User feedback rating. You can find the reviews in the User reviews part of this page.

Note: It's important to note that user reviews may not always provide an objective reflection of the casino's quality. Instances exist where casinos write fake reviews to boost their user feedback score, while some dissatisfied players leave multiple negative reviews to tarnish the casino's reputation. Our best efforts are put into filtering these out and calculating an objectively accurate user feedback score; nonetheless, we do not include user feedback in our Safety Index calculation.

The casino made a good impression. The selection of games is extensive, and promotions are regularly offered to both new and existing players a big plus.

Review 3 — SamRick Bronze Albania

Date context: 26 Mar 2026 08:14.

They offer a wide range of games, including live games and roulette, covering all the usual casino options. The KYC verification process took quite a while, but after that everything went smoothly. I made a deposit without any problems and withdrawals took about two business days. They offer daily bonuses and with the latest one, I deposited 20 € and managed to turn it into 500 € by playing one of their recommended games.

Brand discussion on the Casino Guru forum

Jaroslav Freisa — 07 Aug 2026 03:33

Your review was not accepted because it is not a review. These are your general opinions and observations, plus the other half was about how the casino pays for a good review on our website and how it is not possible that they have the Safety Index that they have. What's more, the casino is not obliged to ask players whether they are addicted or similar. If they did that with every player they have, they would probably need quite a lot of people for it. I am sorry, of course, that you found yourself in such a situation and that you fell into something that is certainly not pleasant. However, it is your duty to notify the casino about it and insist that they self exclude you if you have a gambling addiction. What you consider to be something the casino should have asked about, whether something was wrong, the casino does not have to see that way at all, and for them the warning signal may be something completely different. So, when your review is based on a review of the casino, its negatives and positives, and not on general statements where you also bring us into it, then I can look at it again. You also had an open complaint connected to the review, and that is another reason why it was rejected. With an associated complaint that was rejected, the user review is, in most cases, rejected as well. Not always, but it is often like that.

As for the Safety Index, the casino does not have a single complaint that has not been resolved. It is attentive to our complaint resolvers, and whatever case they deal with is usually resolved. So that is the reason why they have such a high Safety Index.

Jaroslav tkarakaya1985 — 30 Sep 2026 05:15

I can see why two disappointing bonus rounds at €14 a spin would be upsetting. Even at that stake, though, a bonus round isn't guaranteed to return x30 or land four kings. Those two results alone wouldn't show that the game was manipulated. What caught my attention is your point that the spins look different when you bet €10 or more. What exactly changes: the symbols, the game rules, the animation, or the results recorded in your game history? If you noticed a specific round that paid differently from the game's paytable, the round ID and the casino's game record would give us something concrete to examine.
