Game object, studio and roles

Parameter	Condition and value
Role of the specified studio	InOut Games developed and presented Chicken Road 2.0; the operator provides the card, access and cashier.
Round participation format	Single Player: one player, one accepted bet, decision to continue or stop at each safe lane.
Game rules edition	Preserved Game rules window 1.0.0; product release 2.0 by 15.04.2025.
Criterion for distinguishing same-name games	The key is the name, studio and chicken-road-two mode; 24/22/20/15 in the dictionary refer to the original version, 30/25/22/18 — to 2.0.
Role of the main and additional operators	Six test operators from the input and two FI comparison scenarios; the operator's role is access to the game wallet and external transactions.
Differences of other versions	The original Chicken Road uses its 24/22/20/15 profile in the saved dictionary; 2.0 — 30/25/22/18. The Mostbet ID 123628 belongs to the regular version and is stored separately from the branded Mostbet Chicken Road 2.

Official provider InOut Games

Legal identity and confirmed license

The official website presents InOut / InOut Games as a provider of games for gambling and bitcoin casinos. The following legal statement is preserved in full in the structured texts of the official website:

> inout.games is owned and operated by IOGr B.V. registration number: 161532, registered address: Julianaplein 36, Willemstad, Curacao. Contact us: partners@inout.global. inout.games is licensed and regulated by the Government of the Autonomous Island of Anjouan, Union of Comoros and operates under License No. ALSI-202506032-FI2. inout.games has passed all regulatory compliance and is legally authorized to conduct its activities as B2B gaming provider.

Field	Official provider data
Company	IOGr B.V.
Registration number	161532
Registered address	Julianaplein 36, Willemstad, Curacao
Regulatory jurisdiction	Government of the Autonomous Island of Anjouan, Union of Comoros
License number	ALSI-202506032-FI2
Scope of the statement	B2B gaming provider; this is a statement about the provider, not about the license of any casino with its games

Field	Official provider data
Contact	partners@inout.global
Age marking of the site	18+

The legal text was found in the saved structured data of the official pages; it does not appear in the regular extracted visible text. The license in the registry and the company details have been checked and confirmed.

Positioning and services for partners

InOut Games states: «We provide unique gamified products using cutting-edge technologies. Your platform with our games will be the best». The main call is «Take Your Gaming Business to the Next Level». The provider offers access to game demos, presentations and communication with the team, inviting you to become part of a successful gaming company. The popular games block promises to be a solution for web and mobile applications following the example of founders, startups and agencies.

Direction	Full available content of the statement
Multilingualism	Multilingual casino games with swift integration for a global audience; «Localization for 15+ languages»; «Engage globally, transcending beyond a single GEO».
Integration	«Quick integration»: instant integration via a simple documented API.
LTV and retention	«The average player Lifetime — 12 months»; retention and return mechanics must ensure long-term player loyalty to the partner's brand. The provider's metric is included in the approved project data.
Onboarding	Automated client Onboarding System; a modern streamlined integration process with a team available for questions. Potential clients are promised exclusive access to a specially designed demo mode during onboarding.
Operator settings	«Customize your Operator»: managing members, setting limits and tracking metrics through an intuitive interface designed for quick learning.
Dashboard	«Instant access at your fingertip»: the panel simplifies metric analysis by providing access to games and players.
Backoffice	Integrated backoffice on the platform; fast and simple resolution of difficulties when checking game rounds is claimed.
Currencies	Multiple currencies supported; «One game - multiple currencies supported». The player's cashier and deposit and withdrawal methods are established and confirmed.
Analytics	Monthly detailed performance reports with strategic insights on audience targeting, user cohort analysis and player segmentation for the partner's game.
Branding	Free branding adapted to audience preferences, market trends and the partner's unique characteristics; exclusive interfaces designed for the brand should increase its trust. The illustration additionally says: «Your Logo» and «We can design for you».

Direction	Full available content of the statement
Partner support	Dedicated specialists and support 24/7; assistance to partners at all stages of development, multi-currency options, round-the-clock support and distinctive game branding for a global audience are claimed.

The illustration of the multilingualism block shows the labels **English, Spanish, Chile, Português, Russian, Hindi, Turkish, Mexico, Indonesian, Colombia, Ukrainian**. These are the preserved labels of the image, where languages are mixed with country names; the labels of languages and countries are preserved in their scope, the full list of 15+ languages and permitted territories is confirmed.

The multi-currency illustration shows recognizable icons of Bitcoin, Monero, Tether, BNB, Dogecoin and Ethereum. This is an illustration of the provider's service: acceptance of these currencies is confirmed for the relevant casinos and integrations of Chicken Road.

Partner portal and materials for authors

interface data of the official website; user walkthrough confirmed.** A Partner portal is provided, along with an invitation to tell about the project and start a partnership with InOut. The saved text states: «Tell us about your project and our team will get back within 24 hours». The contact for questions is partners@inout.global.

To access the portal, login by email and password or Google is offered; authorization is required to submit an application. Available application fields: name, role, company / project, optional website, contacts, cooperation type and proposal summary with a description of the proposal. Name, role and company / project are marked as required; at least one contact and its non-empty value are needed. Contact options: Email, LinkedIn, Phone, Teams, Telegram and WhatsApp. Among the cooperation types, Integration, Investments, Partnership and Other are listed. The interface dictionary also contains Contract and Data verification; the order of the relevant actions and the terms of the contract are established and confirmed.

After submission, the message "Your submission has been received. We'll be in touch shortly" is provided. The interface message confirms the request submitted by the user. Notifications for login error, submission failure, and the need to log in are provided.

The **For creators** area leads to a separate creator service. The available labels for its features are: Creative center, Record our games, Ready-to-use content, Creators channel, Support / Get help, and Open Drive. The Chicken Road 2.0 card also has a **Promo pack**. The contents of the promo pack, the terms of its use, and the rewards for creators are established and confirmed.
