Pursuant to Art. 13(1) and (2) of Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (hereinafter: GDPR), we would like to inform you about the methods and principles of processing your personal data on the pages of our service available at

TOTALCASINO.PL (hereinafter: Interactive System).

Privacy Policy (PDF)

Who is the Controller of your data

The Controller of your personal data is Totalizator Sportowy spółka z ograniczoną odpowiedzialnością with its registered office in Warsaw, ul. Targowa 25, 03-728 Warsaw, entered in the register of entrepreneurs of the National Court Register kept by the District Court for the Capital City of Warsaw in Warsaw, 14th Commercial Division of the National Court Register, under KRS number: 0000007411, REGON: 012862749, NIP: 5250010982.

The Controller has appointed a Data Protection Officer, who can be contacted by e-mail: iod@totalizator.pl and by traditional mail, at the Controller's registered office address indicated above, with the note "To the Data Protection Officer" in any matter concerning the processing of personal data.

For what purpose and on what legal basis we process data

We process your personal data (including the IP address or other identifiers and information collected via cookies) for the purpose of:

- providing services by electronic means in the scope of making available to you the content gathered in the Interactive System (in the case where you do not have an account in the Interactive System) – in that case the legal basis for processing is the necessity of processing for the performance of a contract (Art. 6(1)(b) GDPR);
- enabling you to create an account in the Interactive System and to participate in games carried out within the Interactive System offering the sale of the Controller's products via the Internet, as well as archiving your data as a game participant (in the case where you have an account in the Interactive System) – in that case the legal basis for processing is:

a) the necessity of processing in connection with the performance of a contract - the provision of services related to the maintenance and servicing of an account in the Interactive System (Art. 6(1)(b) GDPR);

b) the necessity to fulfil a legal obligation incumbent on the Administrator (Art. 6(1)(c) GDPR) arising in particular from the provisions of the Act of 19 November 2009 on gambling games and the implementing regulations to that Act (consisting in particular in the necessity to identify and verify the identity and age of game participants) and from the Act on counteracting money laundering and terrorist financing;

- for analytical and statistical purposes – in that case the legal basis for processing is the legitimate interest of the Administrator (Art. 6(1)(f) GDPR), consisting in conducting analyses of Users' activity and preferences in order to improve the functionalities used and the services provided;
- for the purpose of the possible establishment, pursuit or defence against claims – the legal basis for processing is the legitimate interest of the Administrator understood in this case as the possibility to establish, pursue or defend against claims (Art. 6(1)(f) GDPR);
- the user's location (on the basis of consent) – the legal basis for processing is the consent of the data subject (Art. 6(1)(a) GDPR);
- the implementation of promotional activities in the scope of organised competitions and programmes – the basis for processing is the consent of the data subject (Art. 6(1)(a) GDPR);
- in the situation of directing marketing content to the User where additional consents have been given, in particular consent to receive commercial and marketing information – the legal basis for processing is

voluntary consent (Art. 6(1)(a) GDPR);

- ensuring effective communication between you and the Administrator, including the provision of technical support, handling your reports, filing complaints and providing, at your request, information about services and products through customer service – the legal basis for processing is the legitimate interest of the Administrator (Art. 6(f) GDPR) consisting in enabling contact to be established in connection with the provision of user support services and processes related to the handling of the player's account, including responsible gaming;
- marketing profiling carried out by means of cookies in the scope of setting preferences for the promotions and games displayed in the Interactive System – the legal basis for data processing is the necessity of processing for the implementation of the legitimate interest of the Administrator, understood as optimising the settings of the Interactive System and improving the services provided to the user (Art. 6(1)(f) GDPR).

In our Interactive System we use solutions monitoring user behaviour which allow for profiling, but they do not carry out automated decision-making producing legal effects.

Profiling, however, concerns the user's preference settings based on cookies and can be managed from the browser level. An additional form of profiling is the analysis of players' behaviour, which, however, also does not amount to automatic decision-making.

By means of cookies it is possible to learn about users' preferences – by analysing the frequency of visits to our website and the types of products they view most often. Behaviour analysis helps to better understand users' expectations and to adapt the service to their needs and interests. Thanks to this technology we can present to the user recommendations and other content tailored to them and, from among the available offers, present primarily those which will best correspond to the user's needs. An additional element of the assessment is counteracting gambling-related addictions.

Recipients of data

Personal data may be disclosed to entities authorised on the basis of generally applicable law, in particular institutions authorised to audit the Administrator's activities or institutions authorised to obtain personal data on the basis of legal provisions. Personal data may be processed by other entities on the basis of personal data processing entrustment agreements concluded with the Administrator.

You have the right to:

- information about the processing of personal data – on that basis the Administrator provides the person submitting the request with information about the processing of data, including primarily the purposes and legal bases for processing, the scope of data held, the entities to which they are disclosed and the planned date of data deletion;
- obtain a copy of the data – on that basis the Administrator provides a copy of the processed data concerning the person submitting the request;
- rectification – the Administrator is obliged to remove any inconsistencies or errors in the processed personal data and to complete them if they are incomplete;
- erasure of data – on that basis it is possible to request the erasure of data whose processing is no longer necessary for the implementation of any of the purposes for which they were collected;
- restriction of processing – in the event of such a request being submitted, the Administrator ceases to carry

out operations on personal data – except for operations to which the data subject has consented – and to store them, in accordance with the adopted retention rules or until the reasons for restricting data processing cease to exist (e.g. a decision of a supervisory authority permitting further data processing is issued);

- data portability – on that basis – to the extent that the data are processed in connection with a concluded contract or consent given – the Administrator issues the data provided by the data subject in a format allowing them to be read by a computer. It is also possible to request that these data be sent to another entity – however, provided that there are technical possibilities in this respect both on the part of the Administrator and on the part of that other entity;
- objection to data processing for marketing purposes – the data subject may at any time object to the processing of personal data for marketing purposes, without the need to justify such objection. The objection may be made by changing the browser settings or by contacting iod@totalizator.pl with a request objecting to data processing;
- objection to other data processing purposes – the data subject may at any time object to the processing of personal data which takes place on the basis of the legitimate interest of the Administrator (e.g. for analytical or statistical purposes);

At any time you may withdraw the consent given to receive commercial and marketing information from Totalizator Sportowy Sp. z o.o. The consent is withdrawn by sending a request concerning the withdrawal of consent to the e-mail address iod@totalizator.pl or it is also possible by changing the account settings.

- complaint – if it is considered that the processing of personal data infringes the provisions on personal data protection, the data subject may lodge a complaint with the President of the Personal Data Protection Office.

Data retention period

The period of data retention by the Administrator depends on the purpose of processing. As a rule, data are stored:

a. for the duration of the provision of the service - in the case of opening an account in accordance with Art. 15d(7) of the Act on gambling games, the data are stored for a period of 5 years, counting from the end of the calendar year in which they were archived. After this period the data are automatically deleted without the need for any activity on the part of the user,

b. until the consent to the sharing of location data is withdrawn – carried out by changing the browser's location settings,

c. until the consent to receive marketing and commercial communication or to participate in competitions and programmes is withdrawn,

d. until an effective objection to data processing is submitted - in cases where the legal basis for data processing is the legitimate interest of the Administrator.

The period of data processing by the Administrator depends on the purpose of processing. As a rule, data are processed for the duration of the provision of the service (use of the Interactive System, participation in available gambling games together with the period of their necessary archiving on the basis of legal provisions), until the consent given is withdrawn or an effective objection to data processing is submitted in cases where the legal basis for data processing is the legitimate interest of the Administrator.

Scope of data requested during registration

The scope of data requested during the registration process results directly from legal provisions (Art. 15d of the Act on gambling games and Art. 36 in conjunction with Art. 34 of the Act on counteracting money laundering and terrorist financing). In defining the scope of required data, the legislator aimed to protect minors from gambling addictions and to counteract financial abuse.

On what basis does Totalizator Sportowy request scans of identity cards?

In accordance with the provisions of the Act on counteracting money laundering and terrorist financing (hereinafter: AML), Totalizator Sportowy Sp. z o.o. is an obliged institution required to ensure financial security. In the light of Art. 34(1)(1) of the AML Act, Totalizator Sportowy is obliged to apply financial security measures which include, among others: identification of the client and verification of their identity. As follows from Art. 34(4) of the AML Act, obliged institutions may, for the purposes of applying financial security measures, process the information contained in the identity documents of the client and of the person authorised to act on their behalf and make copies of them. Furthermore, it should be pointed out that one of the elements of security referred to in Art. 34(1)(1) of the AML Act is the identification of the client and verification of their identity. The premise for applying the indicated financial security measures to every client participating in games of chance via the Internet is, in particular, Art. 35(1)(4) of the AML Act.

Data retention period in the case of sending a scan of an identity card

The ID card scan verification time — depending on server load and the client's internet connection — takes up to a few seconds, and the verification result is available in the system immediately. Thus, the processing time of the identity document copy in the case of positive verification is limited solely to the moment of verification and amounts to a few seconds. Following positive verification, the document scan (with redundant fields masked) is permanently deleted from the system, and the employees operating the system have no access to it. After the verification process is completed, the player verification system does not store images of identity document scans.

What identity document data do we collect?

The data that is necessary for us to identify you and at the same time to register you in the Interactive System, namely: first name, last name, PESEL, and ID card series and number.

What additional data do we collect?

- An email address, which is necessary to provide the account functionality in the Interactive System.
- Data concerning your residential address; we are required to collect it by law.
- Data concerning your bank account number, which will enable us to process winnings payouts. Remember that the up-to-dateness of your account number is an important element in the winnings payout process.
- We use the phone number data to provide certain functionalities of the service, including direct marketing, if you have given your consent to such activities. Contact data may also be used to enable contact in connection with the service provided in the event of problems reported by the user. In addition, we may also contact you regarding responsible gaming matters.

TOTALCASINO.PL (hereinafter: Interactive System).

Who is the Controller of your data

The administrator of your personal data is Totalizator Sportowy spółka z ograniczoną odpowiedzialnością with its registered office in Warsaw, ul. Targowa 25, 03-728 Warsaw, entered in the register of entrepreneurs of the National Court Register kept by the District Court for the Capital City of Warsaw in Warsaw, 14th Commercial Division of the National Court Register, under KRS number:

0000007411, REGON: 012862749, NIP: 5250010982.

For what purpose and on what legal basis we process data

We process your personal data (including the IP address or other identifiers and information collected via cookies) for the purpose of:

− provision of services by electronic means in the scope of making available to you the content collected in the Interactive System (in the case where you do not have an account in the Interactive System) – in that case the legal basis for processing is the necessity of processing for the performance of a contract (Article 6(1)(b) GDPR); − enabling the creation of an account in the Interactive System and participation in games carried out within the Interactive System offering the sale of the Administrator's products via the Internet, as well as archiving your data as a game participant (in the case where you have an account in the Interactive System) – in that case the legal basis for processing is:

a) the necessity of processing in connection with the performance of a contract - the provision of services related to the maintenance and servicing of an account in the Interactive System (Art. 6(1)(b) GDPR);

b) the necessity to fulfil a legal obligation incumbent on the Administrator (Article 6(1)(c) GDPR) arising in particular from the provisions of the Act of 19 November 2009 on gambling games and the implementing regulations to that Act (consisting in particular in the necessity to identify and verify the identity and age of game participants) and from the Act on counteracting money laundering and terrorist financing;

GDPR).

In our Interactive System we use solutions monitoring user behaviour which allow for profiling, but do not carry out automated decision-making that produces legal effects. However, profiling concerns user preference settings based on cookies and can be managed from the browser level. An additional form of profiling is the analysis of players' behaviour, which, however, also does not amount to automatic decision-making. The Administrator also ensures the possibility of raising an effective objection by sending information to the address iod@totalizator.pl with a request to stop profiling. By means of cookies it is possible to learn about users' preferences - by analysing the frequency of visits to our website and the types of products that they view most often. Behaviour analysis helps to better understand users' expectations and to adapt the service to their needs and interests. Thanks to this technology we can present to the user recommendations and other content tailored to them and, from among the available offers, present primarily those that will best meet the user's needs. An additional element of the assessment is counteracting gambling-related addictions.

Recipients of data Personal data may be made available to entities authorised on the basis of generally applicable law, in particular institutions authorised to control the Administrator's activity or institutions authorised to obtain personal data on the basis of legal provisions. Personal data may be processed by other entities on the basis of personal data processing entrustment agreements concluded with the Administrator.

- data portability – on this basis – to the extent that the data are processed in connection with a concluded contract or consent given – the Administrator issues the data provided by the data subject in a format allowing them to be read by a computer. It is also possible to request the transfer of these data to another entity – however, provided that there are technical possibilities in this respect both on the part of the

Administrator and on the part of that other entity;

- objection to the processing of data for marketing purposes – the data subject may at any time object to the processing of personal data for marketing purposes, without the need to justify such objection. The objection may be made by changing the browser settings or by contacting the address iod@totalizator.pl with a request objecting to the processing of data;
- objection to other purposes of data processing – the data subject may at any time object to the processing of personal data that takes place on the basis of the Administrator's legitimate interest (e.g. for analytical or statistical purposes);
- withdrawal of consent – if the data are processed on the basis of consent given, the data subject has the right to withdraw it at any time, which, however, does not affect the lawfulness of processing carried out before the withdrawal of consent.

After this period the data are automatically deleted without the need for any activity on the part of the user,

b. until the consent to the sharing of location data is withdrawn – carried out by changing the browser's location settings,

c. until the consent to receive marketing and commercial communication or to participate in competitions and programmes is withdrawn,

d. until an effective objection to the processing of data is raised - in cases where the legal basis for data processing is the Administrator's legitimate interest.

The period of data processing by the Administrator depends on the purpose of processing. As a rule, data are processed for the duration of the provision of the service (use of the Interactive System, participation in available gambling games together with the period of their necessary archiving on the basis of legal provisions), until the consent given is withdrawn or an effective objection to data processing is submitted in cases where the legal basis for data processing is the legitimate interest of the Administrator.

Scope of data requested as part of registration The scope of data requested as part of the registration process follows directly from legal provisions (Article 15d of the Gambling Games Act and Article 36 in conjunction with Article 34 of the Act on counteracting money laundering and terrorist financing). In determining the scope of required data, the legislator aimed to protect minor citizens from gambling addictions and to counteract financial

abuse.

On what basis does Totalizator Sportowy request scans of identity cards?

Pursuant to the provisions of the Act on Counteracting Money Laundering and Terrorist Financing (hereinafter: AML) Totalizator Sportowy Sp. z o.o. is an obliged institution required to ensure financial security. In light of Art. 34(1)(1) of the AML Act, Totalizator Sportowy is obliged to apply financial security measures, which include, among others: customer identification and verification of their identity. As follows from Art. 34(4) of the AML Act, obliged institutions may, for the purposes of applying financial security measures, process information contained in the identity documents of the customer and of the person authorised to act on their behalf, and make copies thereof. Furthermore, it should be noted that one of the elements of security referred to in Art. 34(1)(1) of the AML Act is customer identification and verification of their identity. The premise for applying the indicated financial security measures to every customer participating in games of chance via the Internet is, in particular, Art. 35(1)(4) of the AML Act.

Data retention period in the case of sending a scan of an identity card

The ID card scan verification time — depending on server load and the client's internet connection — takes up to a few seconds, and the verification result is available in the system immediately. Thus, the processing time of the identity document copy in the case of positive verification is limited solely to the moment of verification and amounts to a few seconds. Following positive verification, the document scan (with redundant fields masked) is permanently deleted from the system, and the employees operating the system have no access to it. After the verification process is completed, the player verification system does not store images of identity document scans.

Company and estimated data

Owner; Totalizator Sportowy Sp. z o. o.; Established; 2018; Estimated annual revenues; > C$100,000,000

The goal of this review was taking a closer look at Total Casino. Our expert team used our casino review process to check how it performs and where it lets players down . To form a clear view of this casino's safety, our expert team looked at its Terms and Conditions, licenses, player complaints, support, and limits. They used this data to decide where this casino falls between safe and legit and a clear scam .

Our evaluation has led to the casino's Safety Index, a numerical and verbal representation of our findings regarding safety and fairness of online casinos. A higher Safety Index generally correlates with a higher likelihood of a positive gameplay experience and hassle-free withdrawals. Our review gave Total Casino a High Safety Index of 8.9 . You can feel confident about its fairness and safety. Our full Total Casino review offers details that can help you decide whether this casino is right for you.

Safety Index – Total Casino fairness and safety

In determining a casino's Safety Index, we follow complex methodology that takes into account the variables we have gathered and evaluated in our review . This includes the casino's T&Cs, player complaints, estimated revenues, blacklists, and various other factors.

In our review of Total Casino, we thoroughly read and reviewed the Terms and Conditions of Total Casino. We did not uncover any rules or clauses that we consider unfair or predatory. This is a positive sign, seeing as any such rules could be exploited in order to avoid paying out the players' winnings to them.

Considering our estimates and the factual data we have collected, Total Casino appears to be a very large online casino . In relation to its size, it has a very low value of withheld winnings in complaints from players (or it has not received any complaints at all). When evaluating a casino, we consider the number of complaints in relation to the casino's size, since bigger casinos generally receive a higher number of complaints due to a larger player base.

To our knowledge, Total Casino is absent from any significant casino blacklists. The presence of a casino on various blacklists, including our own Casino Guru blacklist , is a potential sign of wrongdoing towards customers. Players are encouraged to consider this information when deciding where to play.

All of that, together with other factors considered in our review, has resulted in Total Casino having a Safety Index of 8.9, which is a High value . This casino is a recommendable option for most players who are in search of an online casino that is committed to fairness.

Reviewing the T&Cs of Total Casino

To see how fair a casino is, we read through its T&Cs as part of every review . Within the T&Cs of many casinos, we uncover clauses that we deem unfair or potentially predatory. These rules can be used as a reason for not paying out winnings to players in specific scenarios.

We did not find any unfair or predatory rules in the Terms and Conditions of Total Casino during our review.

Player complaints related to Total Casino

Our casino assessment rests heavily on player complaints, since they provide us valuable data about the issues experienced by players the and the casinos' way of putting things right . When calculating the Safety Index for each casino, we take into account all of the complaints that we get through our Complaint Resolution Center in addition to the complaints that we find elsewhere.

We have found no relevant complaints about this casino.

Total Casino user reviews and feedback

At Casino Guru, users have the opportunity to provide ratings and reviews of online casinos in order to share their opinions, feedback, or experiences. Based on these, we then generate a complete user satisfaction score, which varies from Terrible to Excellent.

However, this casino does not have a User feedback score yet. We only calculate it once a casino has at least 5 reviews, but have only received 4 player reviews of Total Casino so far. You may access the casino's user reviews in the User reviews section of this page.

Note: Since it is not uncommon that upset players leave many harmful reviews to damage casino's reputation, and some casinos post false reviews to increase their user feedback score, please note that user reviews may not accurately represent the casino's quality. We strive to filter these out and calculate an accurate user feedback score; however, for these reasons, we do not consider user feedback in our Safety Index calculation.

Company information and licenses of Total Casino

Total Casino is in the ownership of Totalizator Sportowy Sp. z o. o. and has an annual revenue estimate greater than $100,000,000. Based on the revenues, we consider it to be a very large online casino.

To our knowledge, Total Casino has not obtained a gambling license from any regulator.

Withdrawal limits, win limits, and payment method options

Total Casino supports 6 payment methods . This includes: Skrill, Mastercard, VISA, Przelewy24, Online bank transfer, blik.

Many online gambling sites place restrictions on the maximum winnings and withdrawal amounts for players. Oftentimes, the win and withdrawal limits are high enough as to not impact most players. That being said, there are casinos, which pose quite restrictive limitations on the win and withdrawal amounts. This is the reason why we consider these limitations in our casino reviews. You can find information about the casino's win and withdrawal limits in the table below.

Withdrawal limits	Win limits
Unlimited	No win limit

Note: It's possible that some of the payment methods listed may not be used for both deposits and withdrawals. Moreover, the availability of certain payment methods may change depending on your country.

Support and language availability

In our casino reviews, we always collect data about available languages and customer support options. The table below lists the language options at Total Casino.

Language	Website	Customer support	Live chat
Polish	—	—	—

Testing the customer support team is part of every review we carry out. We contact them to check how fast, helpful, and professional they are. Good customer support can make all the difference when things go wrong. It's there to help you sort out problems with your account, withdrawals, or anything else that might occur along the way. Review 1 — Kryptoman00 Bronze Poland

Skandaliczne jest to, że przy rejestracji trzeba podać swój PESEL, numer dowodu osobistego czy numer rachunku bankowego, a sama gra, no cóż, prędziej się wygra w lotto niż tutaj

Skandaliczna rejestracja

Wygranie w tym kasynie graniczy z cudem

Mała liczba producentów gier

Mało opcji wpłat i wypłat

Review 2 — marcinqszwed Silver Poland

Date context: 07 Dec 2023 11:53.

Jeśli męczą kogoś kasynowe zagrywki typu opóźnianie wyplat uciążliwa weryfikacja walka o swoje itp ekscesy.Bo mnie tak. To jest jedyne kasyno online z którym niema takich problemów i jedyne które jestem w stanie polecić w 100% Automaty oryginalne, kasyno ładne schludne., intuicyjne, nie zawiesza się, W 100% uczciwe. Dlatego że jest na licencji totalizatora sportowego czyli praktycznie państwowe. Prócz tego na polskim rynku jest monopolistom oczywiście w strefie online. Stacjonarne salony gier w Polsce monopol ma bezpośrednio totalizator sportowy(Są jakieś kluby ale nielegalne w 100% dlatego piszę że totalizator jest monopolista). Natomiast online jest tylko total. Weryfikacja konta przebiega 24h jest robiona od razu po zarejstrowaniu. Inaczej nie wpłacisz ani nie zagrasz. Później dzięki temu praktycznie nie potrzebujesz live czata który oczywiście jest. Po rejstracji nie ma już nigdy więcej odrzuceń wypłat dodatkowych dokumentów ani nic. przy wypłacie klikasz tyle ile masz na saldzie i jeśli to jest wcześnie rano to o 11 masz na koncie(nie raz zlecalem wyplate o piatej rano). Najpóźniej zawsze są na drugi dzień. Jeżeli chodzi o gry jest ich bardzo wiele i każdy znajdzie coś dla siebie. Wielu których lubię niema ale są takie gdzie niema nigdzie indziej. Miss joker polecam dobrze płaci każda wizyta w kasynie obowiązkowa sesja na początek. Grać tylko na stronie online!!!!!!!!!. Nie wiem dlaczego ale aplikacja jest do niczego gry są jakieś inne i nie wygrasz nic.To korzystajcie. Grajcie że spokojna głowa.

Dużo dobrych gier.

Weryfikacja najpierw potem dopiero gra.

Sama weryfikacja prosta ale trzeba odczekać 24h.

Monopol czyli ma czym placic.

Jedyne kasyno które jestem w stanie z czystym sumieniem polecić a gram wiele lat.

Żadnych problemów później jesteś sam sobie wszystko załatwiasz sam i nie potykasz barier anulowania itp

Jak dla mnie bo jestem z Polski to to że jest monopolista. Państwo przejelo ten rynek w wyrafinowany sposób. Mnie to tylko wkurwia jakoś.

Same bonusy są nie ciekawe przeważnie ukierunkowane na jeden automat.

Na szczęście live czat nie będzie nikomu potrzebny do żadnej ważnej sprawy bo jest słaby.

Review 3 — Plbloke Silver Poland

Date context: 04 Apr 2022 21:36.

Very limited deposit options, apart from Polish bank only visa and skrill. The only currency is Polish zloty. Very limited games providers, customer service only till midnight an only in Polish, basing on much time spent return to players is a disaster. Recognizing this casino by Casino Guru as perfect for international players is the joke

No withdrawal limits

As above, even Polish players mock this casino
